Procedure for No Visa Required (NVR) seal at consular camps organized by Bangladesh High Commission, Canberra

The Government has decided to cease issuance of handwritten visa and NVR. In order to implement this directive, the High Commission will not issue handwritten NVR at the consular camps organised by the Mission in all parts of Australia (except NSW and Queensland) and New Zealand.

- i) **Procedure for NVR endorsement in the camp:** NVR service seekers who want to receive NVR seal in their passport in the camp, have to follow the procedure below:
 - Must Apply online at the following link: <https://www.visa.gov.bd>
 - Take a printout of the submitted application with barcode number
 - Scan all required documents (list of documents available at <https://www.bhcanberra.com/consular-services/bangladesh-visa/endorsement-for-nvr>) and send the complete application to consular.canberra@mofa.gov.bd at least 3 working days before the consular camp for necessary processing at the High Commission.
 - Machine Readable NVR sticker will be affixed on the passport during the camp.
- ii) Applicants who will be unable to submit their online application within the stipulated time, they can submit their application in the camp along with passport, other required documents and a self-addressed prepaid return envelope. Applications collected in the camp will be processed in the High Commission later and sent through the return envelope to the applicants in due course. In that case, the applicants will not be able to receive the NVR in the camp.
- iii) Procedure for obtaining machine readable NVR from the High Commission (Chancery) will remain unchanged.
